

ACME Rocket Skates

Add +3 to all your Movement rolls.

2

Deluxe Moon Pie™

You may reveal the **Moon Pie™** after the dice have been rolled in Fighting Combat to add 1D6 to your total. **Or, Chuckie** can use this card to receive 1D6 free **Polyps**. (*He must still spend an Action to deploy each one.*) Place this card in the Recycling Bin after it is used.

1

Get Out of Bio-Vat Free

Play at the beginning of the turn after you are sent to the **Bio-Vats**. You are immediately restored to your maximum Health and may proceed with your turn as normal. Place this card in the Recycling Bin after it is used.

1

Implosion Belt

Play at the beginning of a round of Fighting Combat, before the dice are rolled. You and your opponent are reduced to zero Health Points and immediately sent to the **Bio-Vats**. Place this card in the Recycling Bin after it is used.

1

InfraX-Goggles

At any time during your Movement Phase, you may peek at one face-down card in your current room or in a room to which you are adjacent. *Traps do not take effect.*

1

InQuest #0

Before fighting begins, you may force your opponent to trade you a random card from his hand for **InQuest #0**. Your opponent may *not* trade **InQuest #0** this turn.

1

Lucky Lemming's Foot

When you are the target of a Shooting Combat, you receive an automatic Duck roll. If your action is to Duck, add +3 to your roll instead. If at any time you have the **Footless Lemming**, you *must* remove it and the **Lucky Lemming's Foot** from the game.

1

Molecular Blender

Once during your Movement Phase, you may move through a wall. (*This counts as a normal point of movement.*)

Particle Accelerator

You may activate the **Particle Accelerator** during your Movement Phase to move an additional 2D6 spaces. However, the scrambling of your molecules also causes 1D6 points of Damage. (*May not be used with a Teleport ability.*)

1

Pod ATM Card

Add +3 to your roll whenever you try and set one of your Code Letters. If you are inside the **Escape Pod** and you have the **Pod ATM Card** you win the game.

2

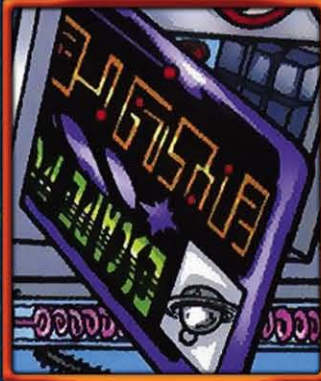

Pod ATM Card

Add +3 to your roll whenever you try and set one of your Code Letters. If you are inside the **Escape Pod** and you have the **Pod ATM Card** you win the game.

2

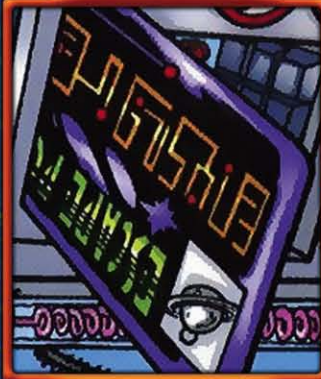

Pod ATM Card

Add +3 to your roll whenever you try and set one of your Code Letters. If you are inside the **Escape Pod** and you have the **Pod ATM Card** you win the game.

2

Add +3 to your roll whenever you try and set one of your Code Letters. If you are inside the **Escape Pod** and you have the **Pod ATM Card** you win the game.

2

Pod ATM Card

Add +3 to your roll whenever you try and set one of your Code Letters. If you are inside the **Escape Pod** and you have the **Pod ATM Card** you win the game.

2

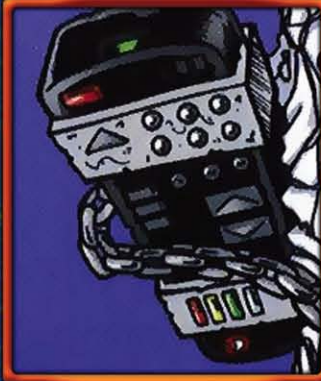

Portable Black Hole

The **Portable Black Hole** can carry any one item for you with no weight penalty. When retrieving the item, however, you must roll a die. *On a roll of 1 or 2, the item has been sucked out of reality and is place in the Recycling Bin.*

1

Really Heavy Remote Control

*Why the heck did they make this out of plutonium? You'll never know, but you may skip your Movement Phase to activate the **Remote Control** instead. Change any one Code Box to a letter of your choice.*

Telepathy Helmet

You may spend your Action to use the **Telepathy Helmet**. Look at any one player's hand. *You must be within 10 spaces of the target player to use this ability.*

1

Witless Relocation Program

Before rolling your Movement Dice, you may use this card instead: Roll 2 dice and multiply. Move to the room that corresponds to the resulting number. If the result is 36, you croak. **Mush** may instead use this card to add or subtract one from the total when he **Teleports**.

2

A Bat Named Leth

Fighting/Shooting Weapon. **Leth** can be used as a Fighting Weapon to give a bonus of +1D6. If **Leth** is used as a Shooting Weapon, roll 1D6 after Damage is dealt. 1-2: **Leth** flies away. (*Place this card in the Recycling Bin.*) 3-6: **Leth** returns to your hand.

6

2

Atomic Stapler

Shooting Weapon. Even if you lose a Shooting Combat with another player, that player still loses one Health from a stray staple.

7

2

Can of Lysol & Zippo Lighter

Fighting/Shooting Weapon. **Lighter** can be used as a Fighting Weapon to give you a bonus of +1. **Damage from Can of Lysol and Zippo Lighter cannot be Ducked.**

1D6 +1

3

1

Gadzooka!

Shooting Weapon. When you fire **Gadzooka!** you move backwards (*away from your opponent*) a number of spaces equal to your Damage Roll. If you hit a wall, you take 1D6 Damage.

2D6

8

2

Lite Saber

Fighting Weapon. 99% fat free.

+2

0

Machete Launcher

Shooting Weapon. The **Machete Launcher** has a **Minimum Range** of 3 spaces. **"Pull!"**

Plutonium Rod

Fighting Weapon. *Floyd* may use the energy from the **Plutonium Rod** during his Action Phase to switch forms. *This does not count as his normal Action.*

+6

3

Rock

Shooting Weapon. If you use the **Rock** in Shooting Combat, give this card to your opponent. **Rock** does 2D6 Damage if fired by the **Slingshot**.

"I got a rock."

106 -1

6

0

Salad Shooter

Shooting Weapon. Range and Damage are +2 when used by **Pete the Chef**.

106

4

1

Seat-Seeking Missile

Shooting Weapon. Seat-Seeking Missile can target an opponent that is not in direct Line of Sight (*it can go around corners*). *Cannot be Ducked.* *Remove Seat-Seeking Missile from the game after it is used.*

206

10

1

Slingshot

Shooting Weapon. Any card you hold can be fired as a Shooting Weapon. **Slingshot** does XD6 Damage, where X is the weight of the card you shoot. *Place the card you shoot in the Recycling Bin after it is fired.*

*

6

1

Switcheray

Shooting Weapon. Roll a die. On a 1 **Switcheray** jams and does not work. On a 2-6 you switch Health Point totals with the target of your attack and if your target attacked you with a Shooting Weapon, his attack is nullified. *Cannot be Ducked.*

*

7

2

Banana Peel

Trap! 4ck! You slide into a wall. Take 1D6 Damage. You may *not* take any Action for the rest of this turn *and* your next turn. **Rats** are unaffected and may instead eat the **Banana Peel** to gain 1D6 Health. (*This can raise the Rats' Health total above 10.*)

Bucket of Anti-Matter

Trap! Somebody propped a **Bucket of Anti-Matter** over the door! Roll a die. On a roll of 1-5 you croak. Your Health total is reduced to zero and you go directly to the **Bio-Vats**.

Don't Press This Button

Trap! Nice going, bonehead. You've opened the **Airlock**. At the beginning of the Movement Phase, each player moves 2D6 spaces towards the **Airlock**. (See **Airlock Room description for details**.)

Footless Lemming

Trap! A **Footless Lemming** has attached itself to your leg! You receive -1 to all of your die rolls (*for room functions 0 counts as 1*). You cannot get rid of the **Footless Lemming** or have it taken away. *Remove it from the game if you are sent to the Bio-Vats.*

Rent-a-Bot

Trap! You've activated a security **Rent-a-Bot**. At the end of each Movement Phase it moves towards the closest player. During the Action Phase it attacks if possible. The **Rent-a-Bot** has 17 Health Points and a Movement Rate of 2D6. When Fighting the **Rent-a-Bot** rolls 2D6+2.

Zemo: The Gathering

Trap! All players are teleported to your room. Each player must partake in a one-round Fighting Combat against any other player, who automatically defends (*even if he is attacking a different player*). The Player with the highest Health chooses his target and resolves Combat first.

MUSH THE ABOMINATION

Genotype:

Extraterrestrial

Occupation:

Lifeform

Der

Blinkenteleporten:

Mush can randomly teleport around the station instead of moving.

Description:

All Mush wanted was a peaceful vacation ride through the cosmos. He never would have

booked this trip if he had known his metabolic hibernation would be interrupted by some kind of Earthling emergency. Pesky humans.

Special: Das Blinkenteleporten

Instead of moving normally, Mush may announce it's teleporting. Roll two dice, multiply the result and place Mush in the resulting room. If the result is 36, you may place Mush in any room. *Either way this ends its Movement.*

PETE THE COOK

Genotype:

Human

Occupation:

Nutritional Engineer, Second Class

Commando

Training: Pete is a commando with a specialty in gourmet cooking. He can perform two actions every turn.

Description:

Aside from being a damned fine chef, Pete's the

last remaining human aboard the ship. He's not worried though. Since the 1990s the government has made it standard operating procedure (SOP) to cross-train every cook as an Airborne Ranger Green Beret Death Commando.

Special: Commando Training

Pete may conduct two different Actions every turn. He can *Fight and Pick, Push and Shoot, etc...* *He cannot do the same action twice.*

Special: Rat Packs

The Rats may use an Action whenever they're in a room to split into two Rat Packs or combine back into one. When Rats split, divide their Health any way you choose (not to exceed your current total). Rat player rolls only once for movement and divides up total among the two packs in any manner. When split, each pack may conduct an Action. Rat Packs' Movement and Fighting modifiers are unchanged, but each can only carry 2. If one Rat Pack goes to Bio-Vat, they both do (recombining). Only the Rat Pack carrying the ATM Card needs to be in the Escape Pod to win.

THE RATS

Genotype:

Muridae Rattus (rodent)

Occupation:

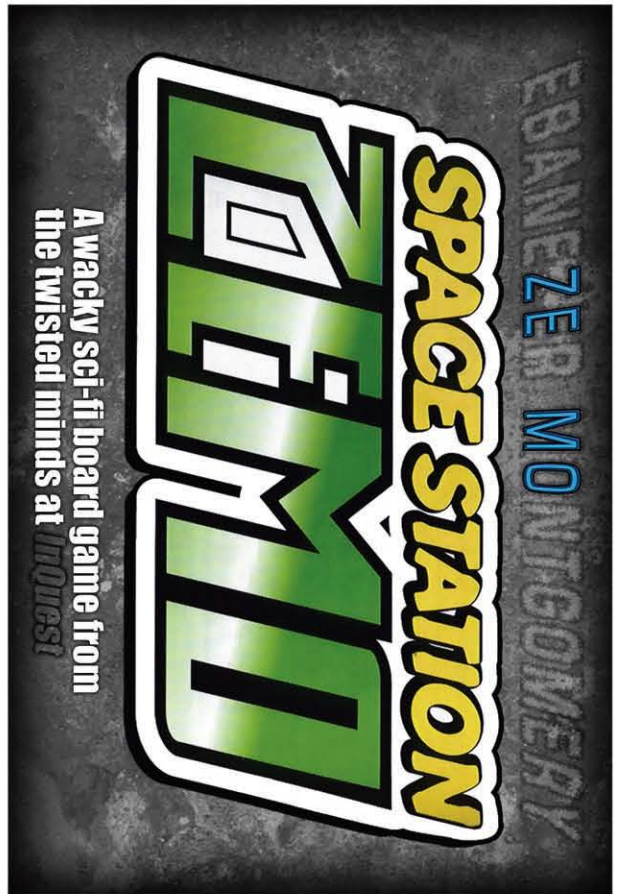

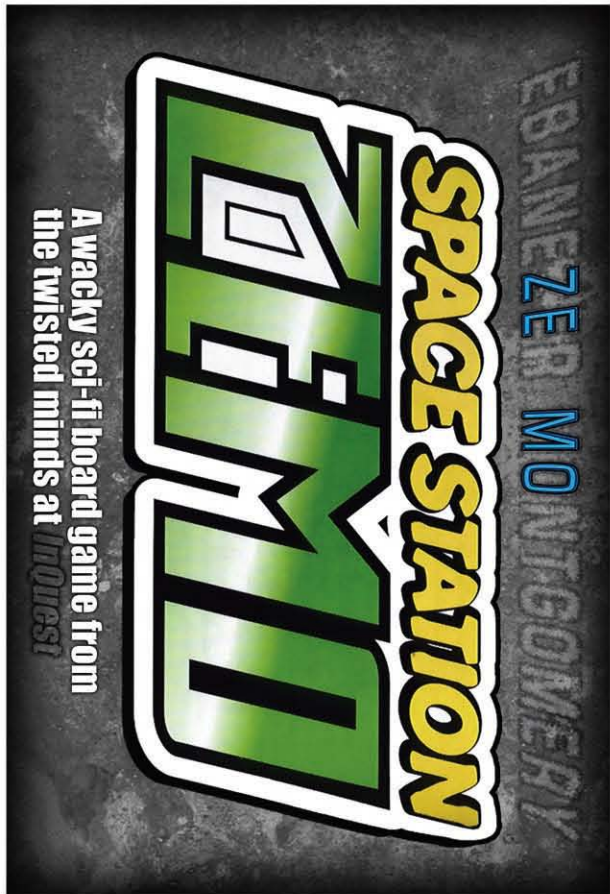

Vernin

Rat Packs: Rats can split into two counters

Description:

Stuck on this scrapheap in space, Ben and his fellow rat bastards have no intention of going down with the ship. The escape pod is designed for one, but the rats figure they can easily cram 30 beady-eyed, twitchy-nosed rodents into the backseat.

CHUCKIE THE ZOMBIE

Genotype:
Mutated Human
(Guinea Pigus)
Occupation: Test Subject

Exploding Polyps: Chuckie can drop exploding polyps to hamper his foes.

Description: He's been pumped so full of chemicals and genetic treatments that his DNA looks like

DNA looks like a road map. His musculature and regenerative systems have been enhanced, but his nervous system's shot. He's kinda slow in more ways than one, but he loves a rare steak. Lucky for him there's a lot of fresh meat on the station.

20

2d6 +2

2d6 -2

5

Special: Exploding Polyps

Chuckie may use his Action to place a "polyp" in his current space/room. No more than one polyp may be placed in the same space. Any other character who enters a space containing a polyp takes 1D6 damage (removing the polyp). Every time Chuckie places a polyp he loses one Health.

FLOYD THE DROID

Genotype:
Metallic Silicon Hybrid
Occupation: Repair Robot

Transformer Chassis: Floyd can change his form to balance his need for speed, combat or hauling stuff.

Description: Floyd thought there was something suspicious

when he was ordered to dust the zoo specimens during a "fire drill." Now that he knows he's been left behind, he's grabbed his toolkit and superglue and is using his bolts to outwit the other nuts on the ship.

15

2d6 +0

2d6 +0

6

Special: Transformer Chassis

Floyd may use his Action to transform himself, thereby changing his Movement, Fighting and Carrying abilities. He begins the game in his basic "Hauler" form and assumes this form whenever he's sent to the Bio-Vat. Other forms:

Gunner:

2d6 +2

2d6 -1

5

Zipper:

2d6 -1
